13025 Birmingham Highway
Milton, GA 30004

Honors Points Added to Transfer Grades

*The counselor/registrar should transcribe all accredited, high school credits on the official transcript. Per board policy, students should be awarded the credit for the course and the grade earned in the previous district. **Note:** Honors points earned in the previous district should remain as awarded in the previous district, but be correctly noted in the transcription. Example: Grade earned: 80; Honors Points: 10. This ensures accurate reporting to GSFC. For letter grades, reference board policy (A=95, B=85, C=75, D that is credit bearing=70, F=60) for transcription. *Note- board policy does not distinguish alternative options for transcription of letter grades with a plus or minus. A course with a pass/fail designation, can only be transcribed as a pass/fail if no grade can be obtained from the previous school.*

Board Policy: The school shall accept student course credit and grades earned in a school which held accreditation or provisional status at the time credit was earned.

I have read and accept the Fulton County Honors Points Added to Transfer Grades Policy above.
