

ENROLLMENT DECLARATION

Milton High School 13025 Birmingham Highway Milton, GA 30004 470-254-7000

Transfer Students Not in Good Standing

All students seeking to enroll are required to reveal whether they are subject to any discipline from their previous school or school district, whether public or private. Such students must submit a certified copy of this order to the Office of Student Discipline prior to enrollment. To be considered a certified copy, the disciplinary order must have an official school or school district seal or stamp, or a copy of the disciplinary order must be attached to a letter from the school or school district on official letterhead. The letter must state that the attached disciplinary order is certified as a true and correct copy. The School District may verify the validity of any order submitted. If the student is unable to produce a certified copy of the disciplinary order, the Office of Student Discipline may request a certified copy the disciplinary order from the previous school district or school.

The School District may honor the disciplinary orders of a public school in this state, a private school in this state, or a public school outside of this state.

The student will also submit the following documentation to the Office of Student

Discipline:

- All available records from the public/private school documenting the reasons for and duration of the suspension or expulsion;
- Any other conditions regarding the return of the student to the public/private school; and
- All available academic, discipline and attendance records from the public/private school.

The Office of Student Discipline is authorized to refuse to enroll a student who is currently subject to suspension/expulsion until the discipline order of the previous school has expired, unless the offense was not an offense for which the School District would impose suspension/expulsion. In the sole discretion of the Office of Student Discipline, a student subject to suspension/expulsion order of another school or school district may be permitted to enroll in the School District's alternative education program under strict academic, attendance and behavior requirements, until the expiration of the suspension/expulsion period. The student's disciplinary order may be reinstated if these requirements are not met.

If a student is ordered to be enrolled in an alternative school, the Office of Student Discipline is authorized to require the student be enrolled in a corresponding alternative education program until the student's disciplinary order expires. Any student who fails to reveal the existence of a disciplinary order may be subject to withdrawal and having the discipline that has not been served being implemented pursuant to this policy.

Nothing in this process shall infringe on any right provided to students under IDEA or Section 504.

****Is the student currently on suspension or expulsion from another school or school system?**

No ___ Yes ___ A student may be withdrawn from school if false information is provided.
